## **Family-friendly skiing programme for youngsters in Obertauern**

**Skiing courses, accommodation and more starting at € 225 for junior snow sports fans**

*When you are young, learning is easy and fun. This is something we see again and again in Obertauern, the skiing and snowboarding hotspot in the state of Salzburg. To help little beginners develop their skiing and snowboarding skills playfully and efficiently, Obertauern offers special "Bobby's Snow Adventure" deals at very reasonable and family-friendly terms.*

All around Obertauern sensational slopes promise endless skiing fun. There are two different junior Tauern rounds specially tailored to the skills and fitness of children and teenagers. They are designed in such a way that they can be used by youngsters without the need for parents or ski instructors.

The children's winter sports programme is named after its official mascot Bobby, the white snow hare. Youngsters under six can sign up for Bobby's Snow Adventure for €225 per participant. The adventure package includes a skiing course for five full days or a snowboarding course for five half days, a ski pass for the duration of the course, rental equipment for six days, free accommodation in the parents' room with the same boarding type as the adults plus transfer to and from Salzburg Airport. In addition, the little "snow angels" can participate in the general kids' entertainment programme for free. If desired, lunch supervision can be booked individually.

For children aged 6 to 14, the Snow Adventure deal costs €305 and includes the above skiing and snowboarding lessons, rental equipment and a 15% discount on airport transfer. Accommodation is booked separately – establishments participating in Bobby's Snow Adventure offer very attractive package deals for guests of that particular age group.

Bobby's Snow Adventure can be booked for any week between January 12 and February 2, 2019, or between April 6 and April 13, 2019, up to seven days before arrival. Skiing and snowboarding courses start on Sundays or Mondays. Bobby's Snow Adventure partner hotels can be found at [www.obertauern.com](http://www.obertauern.com).

All of the ski schools have their own training areas for introducing children in a playful way to skiing and snowboarding. They have different equipment including magic carpets and one ski school even has a mini skidoo course. At the end of the ski or snowboard courses the kids can show what they have learnt in a race.

Families can take advantage of dedicated areas for children, such as the Bibo Bear family ski park, as well as child care and babysitting services, which guarantee a relaxing and sporty family vacation in Obertauern. The one of a kind haunted ski house is a spooky, dark cave, which can be experienced on skis. The kids' igloo is also a popular attraction for the young guests. As a première this winter 2018/19, at selected hotels **CYBEX** pushchairs equipped for snow can be tested free of charge. The winter hiking trails of Obertauern provide the ideal test conditions.

The great location of Obertauern makes it a wonderful choice especially for families. Lift facilities are always only a few swerves away from any hotel, so you'll never have to wait for the next ski bus, or drag your heavy equipment for miles – an asset that people with kids can really appreciate.
